DETAILED ACTION

Allowable Subject Matter

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-3 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 1 wherein the circuit comprises the combination of a first sine-wave signal generation circuit (2), a first phase difference detection circuit (1), a second sine-wave signal generation circuit (9), a frequency difference detection circuit (4), a second phase difference detection circuit (3), an adder circuit (5), and a frequency variation rate limiter circuit (8) in combination with the rest of the limitations of the base claims and any intervening claims. Claims 4-7 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 7 wherein the circuit comprises the combination of a first sine-wave and cosine-wave signal generation circuit (2'), a first phase difference detection circuit (1''), a second sine-wave and cosine-wave signal generation circuit (9'), a frequency difference detection circuit (4'), a second phase difference detection circuit (3'), an adder circuit (5), and a frequency variation rate limiter circuit (8) in combination with the rest of the limitations of the base claims and any intervening claims. Claims 8-11 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 6 wherein the circuit comprises the combination of a three-to-two phase transformation circuit (15), a first sine-wave and cosine-wave signal generation circuit (2'), a first phase difference detection circuit (1'), a second sine-wave and cosine-wave signal generation circuit (9'), a frequency difference detection circuit

(4'), a second phase difference detection circuit (3'), an adder circuit (5), and a frequency variation rate limiter circuit (8) in combination with the rest of the limitations of the base claims and any intervening claims. Claim 12 is allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 5 wherein the circuit comprises the combination of a sine-wave and cosine-wave signal generation circuit (2') and an input frequency detection circuit (14a) in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
